

Adam Haviv

Full Stack Developer

Israel | +972-50-818-1126 | ashaviv27@gmail.com | adamhaviv.com

SUMMARY

Full Stack Developer with 4 years of experience building web platforms, integrations and internal tools with React, TypeScript, Svelte, Node.js and PHP. Currently working at SITE123, a site editor and AI-backed application generator. Background in computer vision (TensorFlow.js, MediaPipe). Native English, fluent Hebrew.

EXPERIENCE

Full Stack Developer | SITE123 | Jan 2025 – Present

- Develop features for SITE123's AI App Builder platform, which lets users generate applications with AI.
- Develop and maintain third-party integrations, including OpenRouter (LLM APIs), ad networks such as Google Ads, and payment, shipping and invoicing providers.
- Build Site Editor tools and layout components used across the platform.
- Maintained and improved SEO modules that support site indexing and search visibility for customer websites.

Software Developer | Cambium | Apr 2023 – Jan 2025

Tech: TypeScript, React.js, Node.js, Svelte, PHP, WordPress, SQL, HTML, SCSS, MUI, Zustand

- Delivered multiple client projects, including custom websites, automations and internal business tools, for both local and international clients.
- Worked directly with clients to gather requirements, align on scope and streamline development processes.
- Adapted to a different tech stack for each project: Svelte, React/Node.js, PHP and WordPress (PHP, HTML and, at times, React).

Full Stack Developer Intern | MinervaXR | Aug 2022 – Apr 2023

Tech: React.js, Node.js, Firebase, HTML, CSS, TensorFlow.js, MediaPipe

- Planned, prototyped and implemented a Learning Management System (LMS) for Unity-based learning modules.
- Implemented front-end body-tracking features (hand pose detection, object tracking) for a medical software prototype.

Python Instructor | Nitzanim Program | Oct 2022 – Jun 2023

- Taught introductory Python to 10th graders, following a curriculum that prepares students for IDF cyber units.

SKILLS

Languages: JavaScript, TypeScript, PHP, Python, SQL, HTML, CSS/SCSS

Front-End: React.js, Next.js, Svelte, SvelteKit, jQuery, MUI, Zustand

Back-End: Node.js, Express, NestJS, PHP, WordPress, REST APIs

Databases: MySQL, MongoDB, Firestore

Cloud & DevOps: AWS (EC2, ECR), Google Cloud, Firebase, Docker, Jenkins, CI/CD, Netlify, Heroku, Render

Testing: Mocha, Puppeteer

Computer Vision: TensorFlow.js, MediaPipe, hand pose detection, object tracking

Tools: Git, GitHub, Jira, VS Code, Cursor (AI-assisted development), PyCharm

EDUCATION

Full Stack Development Program | SV College | Jun 2022

Front-End Development / JavaScript | Codecademy | Jan 2022

LANGUAGES

English (Native), Hebrew (Fluent)
